Light Shine  
Through.*

GENUINE REVERE QUALITY

# Beautiful, Durable and Weathertight

Designed with exceptional style and performance in mind, the Revere 5100 patio door is an excellent choice for your home. Its heavy-duty construction begins with a fully fusion-welded frame and metal-reinforced sashes. The generous glass area optimizes natural light and warmth, while precision-engineered insulating components block air infiltration to minimize heating and cooling costs. Built for constant wear and tear, the Revere 5100 promises classic good looks and easy-glide operation for years to come.

## MODEL 5100 PATIO DOOR

### PERFORMANCE BY DESIGN

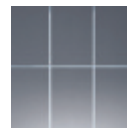

- 1 Durable, solid vinyl main frame and sashes won't chip, peel, crack or warp. Virgin vinyl (PVC) resin is colored all the way through to ensure lasting beauty.
- 2 Protective weatherstripping at jams, header and sill maximizes thermal efficiency.
- 3 Weatherstripping in extra-deep integral interlocks at meeting stiles increases insulation and helps block air infiltration.
- 4 Metal-reinforced vertical sash components provide added strength and durability.
- 5 Insulated glass unit with PPG Intercept™ Warm Edge Spacer System saves energy year-round by reducing the transfer of heat and cold.
- 6 Heavy-duty dual adjustable steel wheels with steel ball bearings provide effortless operation and movement of door panel.

### ADDITIONAL FEATURES

- Fully fusion-welded main frame and sashes for outstanding structural integrity and strength.
- Durable fiberglass screen with aluminum frame features an adjustable independent wheel system in all four corners.
- Available in 2-lite style in 5', 6' and 8' widths, and in 3-lite style in 9' width. Height is standard at 79-1/2". Custom sizes are available.
- Choose White or Beige door with left or right moving panel.

### OPTIONS AND UPGRADES

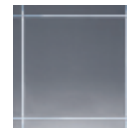

- BarrierXP® insulating glass package featuring Guardian Low-E glass with argon gas and PPG Intercept Warm Edge Spacer System for maximum energy savings and ENERGY STAR® rating.
- Interior vent foot lock allows limited and secure opening of the door for ventilation.
- Keyed exterior lock offers convenient access from outside the home.
- Brass interior handset for added beauty and visual appeal.
- Decorative grids—in standard, contoured and brass styles—positioned between the panes of glass for easy cleaning of the window.
- Grooved glass for a subtle touch of elegance.
