## FROM OUR HOME TO YOURS

*home to yours*

Visually exciting and powerfully built, Revere patio doors will dramatically heighten the style and comfort of your home. Equally important, they will deliver true peace of mind that you have chosen a high-performance door from a respected manufacturer. Pride in our products and "Made in the U.S.A." craftsmanship are at the heart of our commitment to quality. It's what makes our doors among the best in the industry and our service second to none.

Revere patio doors are precision-built and backed by decades of manufacturing expertise. Engineering, innovation, rigorous testing and stringent quality control are just a few ways that we turn cutting-edge technology into superior products and satisfied customers. When you choose a Revere patio door for your home, you can be assured of the highest levels of performance, beauty and value.

# SANCTUARY™

## SLIDING PATIO DOOR COLLECTION

Our Sanctuary sliding patio door captures the essence of superb craftsmanship in three distinctive styles: Contemporary, Classic and French. Each door in this handsome collection masterfully pairs artistic detail with a powerfully protective construction for unmatched quality and performance. You'll also appreciate the infusion of natural sunlight and feeling of an expanded living area offered by this exceptional patio door.

### THE BEST IN DESIGN AND CONSTRUCTION

Expertly crafted with a premium vinyl construction, ultra-efficient insulating components and high-performance glass, Sanctuary presents the pinnacle of design excellence. The heavy-duty mainframe and sash, multi-chambered extrusions and steel-reinforced interlocking meeting rails provide superior structural integrity and durability, as well as increased insulation. Dual internal/external weatherstripping, compression bulb seal, closed-cell foam gaskets and a 1" thick insulated glass unit with a warm-edge spacer system also contribute to optimal thermal efficiency.

Smooth gliding action is assured with a precision-engineered tandem roller system. The handsome yet rugged aluminum screen also features four adjustable rollers for easy and reliable operation year after year.

### GET THE BARRIERXP® ADVANTAGE

You might think of glass as being fragile, yet it's one of the most powerful elements in achieving outstanding thermal efficiency. Upgrading your Sanctuary patio door with one of our BarrierXP insulating glass packages\* can increase energy conservation while minimizing the damaging UV rays that cause carpets and furnishings to fade. BarrierXP combines multi-layer low-emissivity (Low-E) glass and argon gas along with the PPG Intercept® Warm-Edge Spacer System for superior energy savings.

- In winter, BarrierXP increases R-value (resistance to heat flow) by more than 50%.
- In summer, BarrierXP reduces solar heat gain by up to 50% to help reduce air-conditioning usage.

### HIGH-PERFORMANCE SPACER SYSTEM

The spacer system in your patio door not only stabilizes the panes of glass, it also prevents the transfer of heat and cold. Sanctuary patio doors feature the PPG Intercept Warm-Edge Spacer, a unique, one-piece metal alloy U-channel design that reduces heat loss through the patio door. It's stronger and better at retaining insulating gas than many conventional spacers and is nearly 25% more effective than a traditional box metal spacer at the edge of the glass unit.

### GREATER ENERGY SAVINGS

BarrierXP insulated glass packages have proven to be far more effective than ordinary clear glass units. A simple way to compare one patio door to the next is to check out the performance data on the door's glass label. The lower the U-factor, the less energy you'll need to heat your home. The lower the Solar Heat Gain Coefficient (SHGC), the more you'll conserve on air-conditioning.

### ENVIRONMENTALLY FRIENDLY

Did you know that Revere patio doors are eco-friendly in several ways? Each door is precision-engineered to deliver superior energy efficiency and help reduce the consumption of fossil fuels for heating and cooling. As a recyclable material, all in-plant vinyl scrap is reused for other products, further reducing the volume and environmental impact of waste. Vinyl patio doors also boast a long service life and typically weigh less than other substrate door products, requiring less energy consumption during transportation.<sup>1</sup>

\*Source: Vinyl Institute. U.S. EPA Inventory of Sources of Dioxin and Dioxin-Like Compounds.

**Winter Energy Savings:**  
Low-E insulating glass reduces heat loss by reflecting warm air back into your home.

**Summer Energy Savings:**  
Low-E helps block unwanted solar heat penetration to help reduce air-conditioning usage.

Revere offers a variety of ENERGY STAR® qualified patio doors. Consult your Sales Representative for the optimal glass package required for your home and climate zone.

## CONTEMPORARY-STYLE PATIO DOOR

*Enjoy the* natural beauty of the outdoors all year long from the comfort of your home.

Our Contemporary-Style sliding patio door will adorn your home with the perfect measure of modern practicality. Sleek and symmetrical 3" rails frame the generous glass area, while a heavy-duty infrastructure delivers exceptional strength and durability. Meticulous attention to detail is apparent in the superb quality and craftsmanship, with each door constructed to deliver both classic good looks and lasting performance. You'll appreciate the ample infusion of warm, balanced light that beautifully fills the interior of your room.

## BUILT WEATHER TOUGH

Take a closer look at Sanctuary's superior design and weathertight construction. This premium patio door will transform your interior with the beauty of natural sunlight while protecting your home from energy loss.

- 1 Premium vinyl mainframe and sash extrusions are colored throughout—won't chip, peel, crack or warp and never need to be painted.
- 2 Mainframe and sash feature a double-wall design and multi-chambered construction for outstanding strength and thermal protection.
- 3 Dual internal/external weatherstripping on the sash ensures optimal energy efficiency and performance.
- 4 Symmetrical 3" sash rails with mitered and fusion-welded joints provide enhanced aesthetic appeal as well as added strength and durability.
- 5 1" thick insulated glass unit with the PPG Intercept Warm-Edge Spacer System saves energy year-round by reducing the transfer of heat and cold.
- 6 Steel reinforcements at the interlocks and lock rails deliver increased strength, rigidity and structural integrity.
- 7 Contoured glazing bead adds visual interest and beauty.
- 8 Precision-engineered tandem roller system ensures quiet and easy operation of the door panel.
- 9 Mainframe joints incorporate closed-cell foam gaskets for superior sealing.

## ADDITIONAL FEATURES

- Sturdy and durable knock down frame for convenient job site installation.
- Deep interlocks with a protective bulb weatherstrip deliver increased insulation and a tight seal.
- Mainframe includes interior and exterior accessory grooves for installation and design versatility.
- Multi-point locking system with strong steel hook design seals the door tightly closed and helps to prevent energy loss.
- Interlock incorporates a built-in, anti-lift feature to impede door panel removal when the door is closed or locked.
- Stainless steel roller track eliminates the possibility of unsightly dark residue and wearing typical of aluminum tracks.
- Heavy-duty extruded aluminum screen features four adjustable rollers for smooth gliding.
- Available in a 2-panel style in 5', 6', 8' and Wisconsin-style widths; 3-panel styles in 9' and 12' widths; and a 4-panel style in a 12' width with center panels that open to each side.
- Choose a White or Beige door with left or right moving panel—left moving panel is standard (outside looking in); not field reversible.
- Exterior colors and interior woodgrain finish options also are offered.
- Backed by a Lifetime Limited Warranty.†

## PATIO DOOR OPTIONS

- ENERGY STAR qualified BarrierXP insulated glass package options.
- Tandem rollers available with stainless steel housing and bearings for harsh environments.
- Interior ventilation foot lock allows convenient yet limited opening of the door for airflow.
- Keyed exterior lock offers convenient access from outside the home.
- Decorative grids or V-grooved cut glass patterns for enhanced beauty.

**BarrierXP TG2:** Triple-paned unit with two panes of Low-E glass, two air spaces of argon gas and standard Intercept Spacer.

## CLASSIC-STYLE PATIO DOOR

*Transform* the ambiance of your home by creating a deeper dimension to your interior.

Warm and welcoming with a hint of stately charm perfectly describes our Classic-Style sliding patio door. Ample 5" rails and a clean-line design effortlessly merge with a heavy-duty construction for the ideal combination of elegance and strength. The generously proportioned glass area allows you to enjoy the beauty of the outdoors from the comfort of your home. There's nothing like natural light to give your room an inviting, cheerful ambiance—so every season is even more enjoyable.

## ENDURING BEAUTY AND PERFORMANCE

The reliably smooth and quiet gliding of our Sanctuary patio door is a simple pleasure you're certain to enjoy year after year, along with the weathertight seal and energy-saving features.

- 1 Premium vinyl mainframe and sash extrusions are colored throughout—won't chip, peel, crack or warp and never need to be painted.

## FRENCH-STYLE PATIO DOOR

*With simplicity* and ease, the French-Style sliding patio door creates a welcoming entry for your home.

Beautifully crafted with mortised joints, our French-Style patio door has it all. Authentic “French door” character and appeal, along with the floor space-saving functionality of a sliding door. Advanced design innovations and a high-performance glass system further distinguish this ultra-premium selection. You’ll appreciate the smooth and reliable operation, while also protecting your home from inclement weather. Enjoy more of your backyard, deck or terrace whether you’re relaxing outside or taking pleasure in the view from the comfort of your home.

## REFINED STYLE, IMPECCABLE QUALITY

There's something about French door elegance that garners special attention. With a 5" top rail, 7" bottom rail and 3" side rails, this superbly crafted door is certain to elevate the beauty of your home while also providing an excellent weather barrier.

- 1 Premium vinyl mainframe and sash extrusions are colored throughout—won't chip, peel, crack or warp and never need to be painted.
- 2 Mainframe and sash feature a double-wall design and multi-chambered construction for outstanding strength and thermal protection.
- 3 Dual internal/external weatherstripping on the sash ensures optimal energy efficiency and performance.
- 4 5" top rail, 7" bottom rail and 3" side rails feature mortised joints for added strength and authentic "French door" charm.
- 5 1" thick insulated glass unit with the PPG Intercept Warm-Edge Spacer System saves energy year-round by reducing the transfer of heat and cold.
- 6 Steel reinforcements at the interlocks and lock rails deliver increased strength, rigidity and structural integrity.
- 7 Contoured glazing bead adds visual interest and beauty.

## DECORATIVE PATIO DOOR OPTIONS

Sanctuary becomes so much more than a patio door when you give it your personal touch. Choose from a variety of frame finishes, handle options, interior grids and decorative glass to create a custom appearance that beautifully reflects your own good taste.

For an added measure of custom-crafted appeal, choose from our Portfolio® Color Collection of high-performance hues. Luxurious exterior colors are achieved with a cutting-edge polyurethane coating technology incorporating heat-reflective pigments to ensure a remarkably strong, fade-resistant and highly weatherable finish that's easy to clean. Our interior woodgrain laminate finishes are precision-engineered for outstanding durability that maintains its attractive appearance over the life of the product. Together, this innovative design collection delivers the perfect fusion of style and strength.
